ADDRESS

📍 Tallinn, Estonia

SKILLS

HTML5

JavaScript ES6 (Vue.js, Vuex, React.js, React Native)

CSS3 (grid, flexbox, bootstrap, preprocessors - LESS, SASS/SCSS)

Unit, integration and component testing (Jest, React Testing Library, Vue Test Utils, Cypress)

Git

PROFILE

I am a highly motivated, proactive, and goal-oriented software developer with a drive for continuous learning and self-improvement.

I am experienced in working in small to medium Agile teams with a focus on Scrum methodologies, as well as independently, working on freelance projects.

I have great communication skills and attention to detail, and I excel in collaborative team environments as well as when working autonomously.

PROFESSIONAL EXPERIENCE

Software Engineer
Codatina | Remote | October 2023 - Present
- I help digital agencies who need extra development resources in their projects, using technologies such as React.js, React Native, Vue.js, among others.

Software Developer
Konfuzio | Remote | April 2022 - October 2023
- As a part of the Frontend team, I am responsible for implementing new features using Vue.js, Vuex, Buefy, Git (and GitHub/GitLab), Vue Test Utils, and Cypress, delivering a high-quality product, as well as improving existing features and codebase, fixing bugs, supporting clients, and updating our documentation. My work can be found in the following open-source repository.

Freelance React Native Developer
Pipet App | Remote | Dec 2021 - Mar 2022

- I was responsible for helping develop the frontend of a pet mobile app with React Native.

Freelance React Developer
Bien Consulting | Remote | May 2021 - Nov 2021

- I was responsible for creating the React.js frontend for a cross-platform sleep tracking app project.

EDUCATION
